

Manufacturer's Declaration

This is to certify that the following object of declaration have been type-tested for use with low-voltage switchgear combinations in accordance with standard DIN EN 61439-1/-3.

In our capacity as the system supplier, we must stress that in order to comply with the Standard, the ASSEMBLY manufacturer must observe the following:

Design verification is required to verify compliance of the design of the ASSEMBLY with the requirements of this series of standards (Annex D of DIN EN 61439-1).

The system must be set up in accordance with the construction instructions provided by ABB STRIEBEL & JOHN GmbH, the system manufacturer.

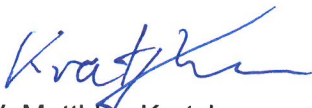

Other configurations comply with the regulations of DIN EN 61439-1/-3.

Once ready for operation, the system must be subjected to a routine test in accordance with DIN EN 61439-1, Paragraph 11.

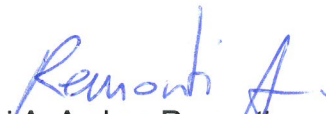

Object of declaration:

System pro E comfort UK600 Consumer Unit.
